How to Support Elimu Africa

Understand the Issues

- The majority of Tanzanians are small farmers. Agriculture is the least profitable sector of the economy.
- 33% percent of Tanzanian households live below the basic needs poverty line.
- In Tanzania, key barriers to education are the inability to pay for school expenses and shortage of both teachers and schools.
- Only 3.9% of all 19-year-old students reached higher secondary school in 2010. Without education, Tanzanian students have little hope for a healthy and successful future.
